## IMC Appraised at CMMI Level 3 For Development and Services

Dulles, VA, 17 December 2019 – [Innovative Management Concepts, Inc. \(IMC\)](#), a Service-Disabled, Veteran-Owned Small Business (SDVOSB), today announced that the company has successfully been [appraised at level 3 of the CMMI Institute’s Capability Maturity Model Integration \(CMMI\)® for both Development \(CMMI-DEV\) and Services \(CMMI-SVC\)](#). The appraisal was performed by Global Certification Services LLC. IMC provides information technology services and solutions to both government agencies and commercial organizations.

CMMI is a capability improvement framework that provides organizations with the essential elements of effective processes that ultimately improve their performance. According to the [CMMI Institute](#), “The maturity level or capability level of an organization provides a way to characterize its capability and performance. Experience has shown that organizations do their best when they focus their process improvement efforts on a prioritized and manageable number of practice areas at a time.” An appraisal at maturity level 3 indicates IMC is performing at a *defined* level. At this level, processes are well characterized and understood and are described in standards, procedures, tools, and methods. IMC’s set of standard processes, which is the basis for maturity level 3, is established and improved over time.

IMC earned CMMI-DEV and CMMI-SVC Maturity Level 3 using the Standard CMMI Appraisal Method for Process Improvement (SCAMPI). A formal evaluation was conducted at IMC’s corporate headquarters and independent appraisers conducted a detailed assessment to verify that IMC is a process-driven organization and a mature provider of IT solutions and services to existing and potential clients.

“Achieving CMMI® level 3 for Development and Services through this independent assessment process demonstrates IMC’s commitment to providing quality solutions and services to our customers and verifies that our processes are implemented in accordance with IMC’s established organizational policies,” said Dr. Robert Might, president and CEO of IMC. “We can build on this success with information gained through the assessment process and continue to improve our solutions and services for our customers, raise our standard of excellence, and sharpen our competitive advantage.”

###
