## IMC to Assist VA with Outpatient Pharmacy Integration and Software Development

Dulles, VA – [Innovative Management Concepts, Inc. \(IMC\)](#), an information technology services and solutions provider, is pleased to announce that it has been awarded a three-year contract for [U.S. Department of Veterans Affairs Consolidated Mail Outpatient Pharmacy \(CMOP\) Pharmaceutical-Dispensing Medical Device Systems Integration Support and Software Development, Modification, Documentation, and Support Services](#). The contract begins on 19 August 2017 and will continue into 2020.

IMC will assist the VA by providing systems integration support, automation controller support, and software development, modification, documentation, and support services for a network of automated pharmaceutical-dispensing operations. The CMOP is a network of seven highly-automated production facilities that use robotic devices, conveyor systems, and human factors to accurately fill and ship nearly 117,000,000 prescriptions per year for healthcare beneficiaries among them our nation's Veterans, active duty service members, and patients eligible for care through Indian Health Service (IHS).

IMC is supported by [Leidos](#) in this effort – a long-time, strategic VA partner with CMOP integration and software development services experience. The team also includes [R/X Automation Solutions](#) and [Four Points Technology](#). IMC and its team members in this effort are committed to supporting the VA's pursuit of its mission to serve and honor the men and women who are America's Veterans.

###
